“Beyond the Smile, Combating Oral Cancer.”

Awarded MMC 2 Credit Point

Hosted by : Department of Dentistry

Wednesday, 15th April, 2026, 8:30 am to 4:30 pm

About the CME –

Oral Cancer The Continuing Medical Education (CME) program on Oral Cancer, “Beyond the Smile, Combating Oral Cancer” organized at Government Medical College Dharashiv, is designed to enhance the knowledge and clinical skills of healthcare professionals in the field of oral oncology. Oral cancer is one of the most common cancer in India, with a high morbidity and mortality rate, largely due to late diagnosis and lack of awareness. Tobacco use in various forms, alcohol consumption, and poor oral hygiene are among the major contributing factors. Early detection and timely intervention play a crucial role in improving patient outcomes. This CME aims to provide updated knowledge on epidemiology and risk factors of oral cancer. This will emphasize the importance of early diagnosis and screening techniques, discuss recent advances in diagnostic methods and imaging highlight current concepts in treatment modalities including surgery, radiotherapy, chemotherapy and rehabilitation. This encourage interdisciplinary collaboration among dental and medical professionals. This program includes expert lectures, case-based discussions and interactive sessions delivered by eminent specialists in the field. It serves as a valuable platform for participants to upgrade their clinical expertise and contribute effectively towards the prevention and management of oral cancer.

Venue : Nursing College Lecture Hall , C.S.Office Building GMC& Civil Hospital Building, Dharashiv

Date : Wednesday, 15th April 2026

Welcome address by The Dean

On occasion of CME Oral Cancer : “Beyond the Smile, Combating Oral Cancer”

Respected dignitaries, distinguished speakers, esteemed faculty members, and dear participants, It is my great honor and privilege to warm welcome you all to this Continuing Medical Education program on Oral Cancer “Beyond the Smile, Combating Oral Cancer” organized at Government Medical College, Dharashiv. Oral cancer continues to be a major health burden in India and unfortunately, regions like ours are significantly affected due to high prevalence of tobacco consumption and lack of early awareness. As healthcare providers, we stand at the forefront in the fight against this disease not only in treatment but also in early diagnosis, prevention, and patient education. This CME has been thoughtfully organized to provide a platform for academic exchange and to enhance our clinical understanding of the latest advancements in the diagnosis and management of oral cancer. I am confident that today’s sessions, delivered by our esteemed experts will enrich your knowledge and strengthen your clinical practice. I would like to express my sincere gratitude to all our respected speakers for taking the time to share their expertise. My heartfelt appreciation also goes to the organizing team for their dedication and efforts in making this program possible. To all participants, I thank you for your enthusiastic presence and your commitment to continuous professional development. Let us utilize this opportunity to learn, interact, and collectively contribute towards improving outcomes for patients suffering from oral cancer. With these words I extend a warm welcome to each one of you and wish this CME a grand success.

Thank you.

Dr. Shailendra Chauhan

Dean, Govt. Medical College, Dharashiv.

Welcome address by The Organizing Secretary,

On occasion of CME Oral Cancer : “Beyond the smile, Combating oral cancer.”

Respected Dean, distinguished guests, honored speakers, esteemed faculty members, and dear participants, On behalf of the organizing committee, it gives me immense pleasure to welcome you all to this Continuing Medical Education program on Oral Cancer “Beyond the smile, Combating oral cancer.” hosted at Government Medical College Dharashiv. The primary aim of organizing this CME is to create a platform for knowledge sharing and to keep ourselves updated with the latest advancements in the early diagnosis, prevention, and management of oral cancer. Given the increasing burden of oral cancer in our region, such academic initiatives are the need of the hour. We have organized a comprehensive scientific program featuring expert talks by eminent speakers, who will share their valuable insights and clinical experiences. I am confident that these sessions will be highly informative and beneficial for all attendees. I would like to take this opportunity to express my sincere gratitude to our respected Dean for constant support and encouragement. I also extend my heartfelt thanks to all our speakers for graciously accepting our invitation and contributing to this academic event. A special word of appreciation goes to the entire organizing team, faculty members, and staff whose hard work and dedication have made this program possible. Lastly, I thank all the participants for your active involvement and eagerness to learn. I hope this CME proves to be academically enriching and clinically useful for everyone present here. Thank you, and wishing you all a very fruitful session ahead.

Dr. Nageshnath Waghmare

Organising Secretary,

Assistant Prof. & Head, Department of Dentistry
